I am writing to express my feelings regarding my procedure on Friday, June 21, 2013. I felt so at home with the staff and was thoroughly impressed about being taken care of in a friendly, organized and professional manner. I totally agree with the five star excellent rating.

Dr. Hanna went above and beyond the call of duty to make me feel comfortable, safe and secure. The staff was equally as efficient and educated about my situation.

I recommend Redwood City Dental Care in the highest possible terms.

Thank you very much,

Karen Andrade

This was, hands down, the best experience I've ever had at a dentist. I came in without an appointment and massive abscess in my tooth. I was taken care of immediately. Every single employee there is a warm and caring person, including the hygienists and dentist who are also highly skilled professionals. I left feeling like I have a new family. . . that takes care of my teeth. . . and doesn't drink too much and cry over the fact that I'm not married yet.

I had a great experience at Redwood City Dental - the entire office staff was great. Alonzo made me feel extremely welcome by giving me an orientation of the office and what would be happening that day. He also outlined my treatment plan so I knew exactly how much everything would cost. Dr. Hanna did a great job of making my NTI appliance for my jaw. I'm finally feeling pain relief! Overall a great experience!

Dr Hanna is great. The staff always makes me feel very comfortable. They are very flexible when I call at the last minute to get an appointment. They actually recommended I get a test for sleep apnea during a sleep dentistry session. I got checked out and they were right. How often do you find a dentist that potentially adds years to your life. I highly recommend them.

I am extremely grateful for everyone at RWC Dental. I hadn't been to the dentist in some time, and I was fearful of going back to my original dentist of 15 years because of embarrassment. I read reviews about RWC Dental, and made an appointment. Here are just some of the wonderful qualities that make them unique, and fabulous.

-Everyone is very friendly, and without judgment. They asked questions to assess my desires and needs.

-Their technology is precise. They performed X-rays and reviewed the condition of my teeth with me. They inspected for oral cancer. My teeth were whiter than ever from just the first cleaning, and, thankfully, they didn't use painful metal tools to scrape between my teeth and gums. The cleaning was pain free, relatively quick, and the results were incredible.

-They offered me a discount on fillings. The doctor even found a small cavity during the procedure and fixed it for free. He stayed late and adjusted a filling so that my bite was perfect.

-No waiting. I was in and out.

-They provide numerous services, especially for people who are afraid of the dentist. I didn't need any special accommodations, however, they have the skills and equipment to make the experience as pleasant, as possible.

-They were always concerned with my comfort.

Most importantly, they inspired me to write a review. Sadly, I am busy, lazy really, so I rarely write reviews, however, they are amazing, and I feel inclined to share my personal experience.

Whenever I have had any questions about what my plan will or will not pay I have always gotten an answer to any and all questions. Willing to go the extra mile to make sure that your teeth are looking good and that you are well pleased with the results that they say can be done to make you look and feel good about your smile.

I cannot speak for any "real" dental work, other than a cleaning (fortunately, I have not had to deal with any of that). I can however say that from the first time I walked in, Alphonso was very friendly and polite. Took info and gave me some details, as well as setting up my first appt, Yelena (?? sorry, hon!) was very professional, informative, polite, and funny at times @ my first visit. Carol, my hygenist...a DOLL!. She and I clicked, and that particular person is SO important to me. Dr Hanna was very nice and very professional. Staff: All AWESOME! Parking: Is at a premium, but they are so worth going to. :-D
